## **1. OVERVIEW**

- 1.1** The South African government recognises the potential of the film industry and has prioritised it as one of the sectors under its Accelerated and Shared Growth Initiative (ASGI-SA). The growth of the film industry could have a tremendous impact on economic development in terms of employment and exports, while stimulating a host of supplier industries.
  
- 1.2** South Africa has a growing and vibrant film sector, attested in the recent past by productions such as the award-winning *Tsotsi* and the internationally acclaimed *Blood Diamond*. Opportunities abound and producers continue to benefit from the cost competitiveness of the country's beautiful locations.
  
- 1.3** To support the growth of the sector, the Department of Trade and Industry (**the dti**) is offering incentives in order to increase local content generation and improve location competitiveness for foreign film productions. In addition to incentives, **the dti** is working with other role players on raising the profile of the sector in general and a number of strategic co-production treaties are set to improve distribution locally and internationally.
  
- 1.4** I hereby extend an invitation to industry players to make use of this facility and to support the South African Government in realising its goals of growth, employment and equity.

Mandisi Mpahlwa, MP

Minister of Trade and Industry

Date: 15/01/2008

## **2. DESCRIPTION OF THE SOUTH AFRICAN FILM AND TELEVISION PRODUCTION INCENTIVE**

- 2.1** The South African Government offers a package of incentives to promote its film and television production industry. The incentives consist of the South African Film and Television Production Incentive, which aims at assisting the local film producers in the production of local content, as well as the Foreign Film and Television Production Incentive to attract foreign-based film productions.
- 2.2** The South African Film and Television Production Incentive is only available to qualifying South African productions and official treaty co-productions with total production budgets of R2,5 million and above<sup>1</sup>.
- 2.3** The objective of the South African Film and Television Production Incentive is to support the local film industry and to contribute towards employment opportunities in South Africa.
- 2.4** The South African Film and Television Production Incentive provides financial assistance to local productions in the form of a rebate of up to 35% of the Qualifying South African Production Expenditure (QSAPE). The rebate will be capped at R20 million.
- 2.5** The incentive is effective from 01 February 2008 (subject to paragraph 3.1) and will be administered for a period of six years up to 2014.

<sup>1</sup> Note that there is a separate Programme Guideline document for the Foreign Film and TV Production Rebate, targeted at attracting larger-budget international productions

All costs including ***Total Production Expenditure (TPE), Qualifying South African Production Expenditure (QSAPE) and Non-Qualifying South African Production Expenditure (Non-QSAPE)*** must be presented with each application for purposes of clarity.

### **9.1 Total Production Expenditure (TPE)**

A film or television production's total production expenditure is that incurred or reasonably attributable to the making of the film from pre-production to the point at which the first copy of the film is ready to be distributed, broadcast or exhibited to the general public.

Section 24F of the Income Tax Act No 58 of 1962 (The Act) defines production expenditure as follows:

*"Production cost", in relation to a film, means the total expenditure incurred by a film owner in respect of the acquisition or production of such film, excluding expenditure incurred in the erection, construction or acquisition of any buildings or other structures or works of a permanent nature, but including, without in any way limiting the scope of this definition –*

- *any remuneration, salary, legal, accounting or other fee, commission or other amount paid or payable to any person for the purposes of or in connection with the production of the film;*

- *the cost of acquiring the story rights, script, screenplay, copyright or other rights in relation to the film;*
- *insurance premiums in respect of insurance against injury to or death of persons, or loss of or damage to property employed or used, as the case may be, in the production of the film;*
- *premiums or commission payable in order to secure a guarantee that the cost of the film will not exceed a specified amount;*
- *interest, finance charges and raising fees incurred for the purposes of or in connection with the production of the film;*
- *the cost of acquiring or creating music, sound and other effects, which will form part of the film;*
- *any allowance which but for the provisions of this section would be allowed under section 11(e) or (o) or 12C in respect of any machinery, implements, utensils or articles used in the production of a film: Provided that-*
  - *any such allowance shall be deemed to be an amount of expenditure incurred;*
  - *an amount equal to the total amount of any such allowance which may be granted in respect of any year of assessment divided by the number of days in that year*
  - *shall be deemed to have been incurred on each day of that year;*
  - *such expenditure shall be deemed to have been incurred in the country in which the asset in respect of which the allowance may be granted was acquired; and*
  - *no deduction or allowance shall be granted in respect of the cost of acquisition of any such machinery, implements, utensils or articles otherwise than as provided in this paragraph or paragraph (h); and [Para. (g) amended by s. 26 of Act No. 129 of 1991.]*
- *expenditure incurred in respect of:*
  - *the purchase, hire or construction of sets; and*
  - *the hire of any machinery, implements, utensils or articles used in the production of the film, but excluding any such expenditure incurred after the completion date and any expenditure incurred in the marketing or promotion of, or soliciting of orders for, the film.*

## **9.2 Qualifying Production Expenditure**

- Qualifying Production Expenditure will include all the production costs spent by the applicant on intellectual property and goods owned, or facilities and services provided by South African companies.
- Where individuals or contractors are paid via an agency, proof of the South African citizenship status of the individual and contractor will be required.
- Where the purchase of South African copyright is being claimed as QSAPE the relevant legal agreement verifying chain of title must be attached to the application form and monitoring reports.
- All expenditure in South Africa for international services that remains in South Africa will therefore qualify as QSAPE.
- Only production costs discharged through the bank account of the SPCV will qualify as QSAPE.

## **9.3 Non-Qualifying Expenditure<sup>2</sup>**

- Financing expenditure
- General business overheads
- Other associated party fees
- Deferments, profit participation, residuals
- Advances
- Land and building
- Costs of services embodied in goods

<sup>2</sup> Definition of Non-Qualifying Expenditure appears in Appendix A.

Trade and Industry  
REPUBLIC OF SOUTH AFRICA

## **10. TREATMENT OF EXPENDITURE**

### **10.1 Value Added Tax (VAT)**

All amounts set out in this document and those provided in applications must be net of VAT where it is reimbursable.

### **10.2 Currency exchange**

All QSAPE will be incurred in South African Rand. All other production expenditure incurred in foreign currencies must be reported in South African Rand using the budgeted exchange rate on the audited expenditure statement.

### **10.3 Arm's length expenditure**

The arm's length principle is to ensure that amounts charged between the applicant company and any connected parties for the provision of goods or services are commercially reasonable.

Where the applicant incurs expenditure under a non-arm's length arrangement, which inflates or deflates the cost of particular goods or services in relation to the film production, then a rate no greater than the commercial rate for those goods or services will be counted towards QSAPE and TPE. The commercial rate will be taken to be the amount that would have been incurred if the parties were dealing at arm's length with each other, charging what they would ordinarily charge to an unrelated party. If a lesser rate is charged, that rate must be claimed.

The arm's length principle applies to any act or transaction directly or indirectly connected with any expenditure incurred by the applicant - that is, the principle still applies if a non-arm's length deal between other parties otherwise inflates the expenditure of particular goods or services purchased by the applicant.

**the dti**

Department:  
Trade and Industry  
REPUBLIC OF SOUTH AFRICA

#### **10.4 Basis of expenditure**

To be included as QSAPE, an expenditure item must have actually been incurred on the making of the specific film production for which the application is made. In addition, the applicant must have actually discharged its liability to pay at the time of application for the incentive.

#### **10.5 Expenditure by prior companies**

Eligibility for the incentive extends to an applicant who takes over the film production from another company (or companies) and completes the film production. The applicant is taken to have incurred the production expenditure of the previous company (or companies) for the purposes of the incentive.

Any costs incurred by the applicant in the take-over of the project are excluded from its calculation of QSAPE.

Documentary evidence of this expenditure to verify that it qualifies as QSAPE must be provided.

#### **10.6 Purchase and sale of goods**

Where an applicant purchases any goods for use in a film production and sells or disposes of those goods on the completion of the production, only the net cost of those items can be claimed as TPE or QSAPE.

In the event of the applicant or an associated party retaining any goods purchased beyond the completion of the film, an independent valuation must be made of those goods and that valuation must be deducted from the value of QSAPE for the purpose of calculating the incentive.

**the dti**

Department:  
Trade and Industry  
REPUBLIC OF SOUTH AFRICA

## **10.7 Transfer pricing**

It is anticipated that the applicant company will charge a production services fee if the film is being produced for an overseas producer or studio. This fee must be at an arm's length commercial rate and will be considered QSAPE if it satisfies the criteria.

If this fee is paid out of the incentive, it will not have been incurred before the completion of the film and will not qualify as QSAPE under Section 5.8.

## **11. REBATE CALCULATION**

- 11.1** The rebate is calculated as 35% of first R6 million of the QSAPE; thereafter 25% is calculated for the remainder;
- 11.2** The maximum rebate is capped at R20 million.

**the dti**

Department:  
Trade and Industry  
REPUBLIC OF SOUTH AFRICA

- 50% of the cost of the completion bond will be subsidised for productions between R6m and R10m.

Deferments, profit participation, residuals	<p>QSAPE does not include expenditure that is dependent on the film production's commercial performance and its earnings, as expenditure directly linked to the production's commercial performance cannot be quantified until after the production has actually been exhibited.</p> <p>Therefore, expenditure items specifically excluded from QSAPE include:</p> <ul style="list-style-type: none"><li>- Payments deferred until the film production provides financial returns through box office receipts, earnings or profits (for example, bonuses paid to directors);</li><li>- Payments dependent on eventual profits made on the production;</li><li>- Amounts payable in relation to the residual rights of cast members concerning the commercial exploitation of the production through future exhibition and distribution.</li></ul>
